

What a Spread!

The news was so big,
we needed this 2-page
“spread” to show you
our new **one2four series**.

1 stackable footprint, **2** interchangeable
matching bases & lids, **4** packages.
With one hot* or cold packaging solution
for entrees, sides, appetizers, and
desserts, you can save up to 75%
on packaging inventory.

With the **one2four series**,
you won't have to “spread”
out your take-out packaging inventory
all over your storeroom.
