

# DID YOU RE-USE

## A TAKE-OUT CONTAINER TODAY?

### “GREEN” BENEFITS

#### MULTIPLE-USE!

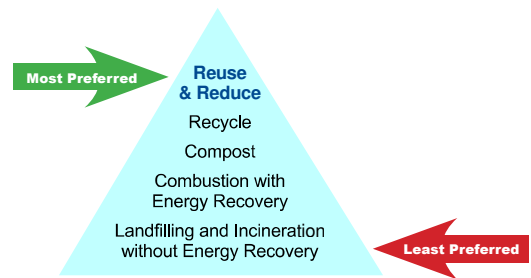

Unlike single-use, foam or paper containers, Anchor Packaging polypropylene  take-home containers are designed to be reused again and again. Made from the same material as reusable food storage containers purchased in stores.

- MicroRaves platters, bowls, and lids
- Culinary Classics and Culinary Basics hinged lidded containers
- Microlite deli cups and lids

#### SAVES ENERGY!

Anchor's  containers are specifically designed for microwave re-heating instead of stove or oven heating which requires longer heating times and more energy.

The EPA recommends REUSE over other waste management strategies.

Solid Waste Management Hierarchy

#### RECYCLE!

After multiple uses over several months, recycle the Anchor  container when it begins to show wear and tear. Check your community for recycling information ([www.earth911.org](http://www.earth911.org)).

Anchor products are BPA-free.
