^oNon-stocking. Call for lead times.

ULTRA WRAP™ Films

Films offer softer feel while providing greater yield per roll. Improved stretch-ability reduces physical strain associated with hand wrapping. Meat films contain minimum 5% epoxidized soy bean oil (EXBO) reducing the amount of oil-based PVC resin used. Cores are manufactured with 100% recycled paperboard and designed to keep the film rolls in place during shipment. Corrugated pads add extra protection when stacking rolls to eliminate crushed ends.

Premium Grade

Stretch film ideally suited for overwrapping meat and produce on high-speed automatic stretch wrapping equipment at supermarkets and processors.

Superior Grade

Premium, high-yield stretch film designed for packaging fresh meat in supermarkets using automatic wrapping equipment.

Stretch & Miler® Grade

Economical, high-yield stretch film designed for packaging fresh meats in supermarkets using hand wrap or automatic equipment.

Produce Grade

Economical, high-yield green tinted stretch film used on hand-wrapping equipment for packaging fresh produce. High gas transmission helps keep produce fresh.
