Makes Food Look Like it Should Cost More

ATTRACTIVE PRESENTATION & CONSUMER CONVENIENT

Hinged or separate black bases and clear lids improve the food presentation and your brand for an enjoyable take-out or delivery experience. Consumer convenient, table-ready containers maintain that "just-made" appearance with no re-plating necessary.

DURABLE AND REUSABLE

All packages are made with durable, cut resistant polypropylene designed to be dishwasher safe and consumer reusable. Easy opening tabs and re-close features make these the perfect containers to store leftovers or other items at home.

HIGH HEAT PERFORMANCE & LEAK RESISTANT

Polypropylene hinged and two-piece packages withstand temperatures to 210°F, under heat lamps, in warming units, or in the microwave. No off-odors or off-flavors during heating like some polystyrene containers. Leak-resistant closures assure no messy spills during handling or transport. Anti-fog, vented clear lids keep food looking fresh and appealing while preventing order errors.

RECYCLABLE – CURBSIDE

All polypropylene packages are eligible for recycling curbside after multiple uses.
