

Deliver Food the Way the Chef Intended

Fresh & Appealing - Alternatives to Foam

EXCELLENT FOOD VISIBILITY

Clear, anti-fog, vented lid prevents order errors before leaving the restaurant and preserves that "just-made" food quality appearance. Impress customers with food presented in a value-added, attractive package. Operators appreciate the affordable upscale alternatives to foam and paperboard containers.

SECURE LID PREVENTS MESSY SPILLS

Tight, leak-resistant lids remain closed during handling and transport. The positive stacking design allows packages to be stacked in the bag while venting excess moisture. Tabs on bases and lids make packages easy to open and reclose to store leftovers.

HIGH HEAT TOLERANT/MICROWAVABLE

Designed to protect food quality. Withstands temperatures to 230°F under heat lamps, in warming units and in the microwave. No need to transfer food to a plate to reheat.

REDUCE, REUSE, RECYCLE

Hinged or two-piece base and lid options, made with less polypropylene  resin, are durable and cut-resistant. All packages are dishwasher-safe, consumer reusable, and eligible for curbside recycling after multiple uses.

	Product Number	SKU Number	Description	Capacity Fl. Oz.	Case Pack
	M4808	4604818	4.75" Round black microwavable bowl	8 oz.	540
	LH4800D	4334816	4.75" Round microwavable clear anti-fog lid fits 8 oz bowl	-	540
